

Chlamydia

www.ruthe1.co.uk

1 in 10 have got it.

Are you the 1?

Chlamydia is currently one of the most common sexually transmitted infections.

Most people with chlamydia will not have any symptoms.

If you are gay or bisexual you are still at risk of catching chlamydia.

To make sure you're not **the one**, use the voucher below to receive your **FREE TEST**.

This voucher entitles the holder to a **FREE Chlamydia Testing Kit**

Please take this voucher to your nearest Pharmacist
